Prefatory Note

The ART INDEX is an index to domestic and foreign publications. Although it is primarily a periodical index, yearbooks and museum bulletins are included. The main body of the Index consists of subject and author entries to publication articles arranged in one alphabet. In addition there is an author listing of citations to book reviews following the main body of the Index. Subject areas indexed include archaeology, architecture, art history, city planning, crafts, fine arts, graphic arts, industrial design, interior design, landscape architecture, museology, photography and films, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee, as part of its study, prepares a list of periodicals representative of all subject areas included in the Index for consideration by the subscribers.

Selection of periodicals for indexing from this list is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

While the responsibility for all indexing and editorial decisions rests with The H. W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H. W. Wilson Company, 950 University Avenue, Bronx, N. Y. 10452.

Explanatory Notes

ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Divisions within major subject areas (such as ART) are filed in the following order (1) General subdivisions (ART—Themes), (2) Geographical subdivisions (ART—China), (3) Inverted headings (ART, Indonesian), (4) Phrase headings (ART and literature).

BOOK REVIEWS

Citations to book reviews are listed in a separate alphabet following the main body of the index. Some book reviews are also indexed under subject headings; their title is supplied with [review article].

HEADINGS

Corporate names used as headings are listed under various appropriate subject headings, e.g. ARCHITECTURAL firms and groups; DESIGN firms and groups; TEXTILE industry—United States.

ARTICLE TITLES

Supplied titles or parts of titles are enclosed in brackets.

ILLUSTRATIONS

Works of art (up to ten) are listed in a note after the artist entry when illustrations accompany an article. If illustrations of an artist exceed ten, they are not itemized, but their number is given in the entry, e.g. 25 il.

REFERENCES

See references lead from terms not used as headings to those under which entries are to be found. *See also* references lead to related subjects. Cross references are made to inverted headings from the uninverted form.

Explanation

The first entry lists a colored reverse glass painting of the time following General George Washington's presidency and death. It was made for the China Trade. The reproduction can be found in volume 124 of *Antiques*, on page 917 of the November 1983 issue.

The entry for John S. Jameson leads to an article entitled with the name and date of this American landscape painter, and written by P. R. Everett. The publication is supplied with bibliographical footnotes and a portrait of the artist. Illustrations by the artist or attributed to him are listed by title following the entry. This article is located on pages 53-59 of the *American Art Journal* volume 15 no2, Spring issue 1983.

The reproduction of a lead cast of 1570 by Hans Jamnitzer the Younger, whose birthyear cannot be ascertained, appeared in the *Cincinnati Art Museum Bulletin* on page 45 of volume 12, June issue of 1983.

A piece of workmanship originating from the artistic environment of the latter's father, Wenzel Jamnitzer, is reproduced in *Apollo* new series volume 118, on page 49 of the July 1983 issue.

The fifth entry refers to a reproduction of a Japanese screen, whose painting has been attributed to the artist known as Kōetsu; his complete name is, however, Hon'ami Kōetsu. This work is represented in *Apollo* new series volume 118, on page 144 of the August 1983 issue, where it appears in two reproductions with a detail.
